JumpStart Course Teaches Accountants How to Market

JumpStart Your Accounting Business, an online CPE training course, will start August 19, 2015 and run through September 17, 2015. This high-energy, fast-paced course is designed to help public accountants who are starting or re-starting their practice and need to attract more business rather quickly.

The online course consists of 8 live webinars with access to a library of documents, and is taught by Sandi Leyva, CPA, an award-winning thought leader who has helped many accountants earn more, work less, and serve their clients better through her innovative coaching and training services.

To introduce the course, a complimentary webinar, "10 Surefire Ways to JumpStart Your Accounting Business," will be held August 12, 2015 at noon EDT. Accountants can register here:

Participants in previous JumpStart courses have included accountants with full time jobs and a dream to start their own business, public accountants that have moved or re-started their business, accounting professionals in their first three years of business, and savvy accountants who simply want to learn everything they can about the newer changes in marketing. Details about the course can be found here:
